

children's
kindness
network

Dear Parent/Guardian:

Moozie the Cow was introduced to your child today. Moozie is very special because she teaches children about kindness-focusing on being kind

- to self
- to others
- to animals
- to earth

Being kind in this context is:

- sharing
- taking turns
- helping
- saying kind words

Animals will benefit by caring for their well-being. Being kind to the earth will help children learn how people affect the environment from a child's perspective.

This outstanding framework of kindness provides your child with cognitive skills, language, physical, social, emotional, and creative expression.

Home involvement is a helpful component of the Moozie curriculum. You can support in-class learning by observing and praising kind behavior at home.

Thank you for helping Moozie the Cow teach your child kindness. Moozie is the ambassador of kindness for the Children's Kindness Network. For more information-<http://www.moozie.com>

Sincerely,
